

PAVIMENTO OF PARIS

Paris, France is one of the most inspirational places for architecture. The Paladiano team recognized the abundance of granite sets positioned in a repetitive fish scale design. These quarried granite sets had been dressed and hand placed by what can only be described as paving artisans. To reproduce the streetscapes of Paris was an engineering challenge.

YORKSHIRE COBBLE

York was for many years the heart of England. When troubled times fell upon London Kings and Queens would retreat back to York, safe behind fortified walls. York cathedral stands in the centre of the cobbled streets that inspired Paladiano to recreate these 13th century cobble stones.

Part #	YORKSHIRE COBBLE	Size	Weight	# per set

ROTATING VENETIAN MARBLE

Founded more than 1,500 years ago on 117 different islands, Venice, Italy is linked by a series of over 150 canals, 400 bridges and many ancient pavements.

Travertine and Marble streets and sidewalks, cut with precision were then placed by skilled masons. The original stones were unfinished, now with hundreds of years of floods and use the marble and granite have naturally become honed and smooth.

STONES OF ATHENS

The ancient city of Athens, Greece, crowned with marble temples such as the Parthenon and the Acropolis stands the test of time with millions of visitors walking the time old streets of Athens.

A variety of different stones helped the Paladiano Team create Athens Stone, one of most intricate tools using over 14 combined textures: Limestone, Marble and Granite are all used next to each other detailing the fine craftsmanship of ancient Greece.

HAMMERED SOFIA STONE

For over 7000 years Sofia, Bulgaria has been a meeting place of the four directions of the world making Sofia one of the oldest settlements in Europe.

Plazas, town squares and winding streets made from granite and lime stone with a Bush Hammered texture. A bush-hammered finish is one with a rough uniformly patterned surface produced by an impact tool with a smooth border around each stone creating a prestige look.

FRACTURED CYPRUS SLATE

Cyprus, a small island with a large history, is surrounded by the Mediterranean Sea, soft sand and heavy slate hardscapes.

The natural paving material is a hardened slate found deep underground. Heavy in texture but difficult to shape, the joints have a fractured split edge.
