

BRICKFORM Resurfacing Products

Brickform resurfacing products quickly rejuvenate concrete surfaces without disruption or high cost. Concrete no longer needs to be removed and repoured. You can turn old concrete into a fresh colorful look with Micro-Topping; or you can produce a sophisticated natural stone look with Stampable Overlay. Texture, color, stain – any finish of your choice is possible.

BRICKFORM **Stampable Overlay** “White” is a single component (add water only) blend of white cement and special materials that forms a thin, concrete coating. BRICKFORM Stampable Overlay is specially designed to work with BRICKFORM Overlay Liquid Colorant. BRICKFORM Stampable Overlay is easy to install and forms a tough, durable topping that will withstand years of wear. When used on properly prepared surfaces, BRICKFORM Stampable Overlay will permanently bond to concrete surfaces.

- Creates a new 1/4” to 1/2” surface
- Use with overlay liquid colorant
- Durable
- Use with triple seven bond coat

SC-60 60 lb. bag (White Mix)
For use with Overlay Liquid Colorant only

BRICKFORM **Stampable Overlay** “Gray” is a premixed blend of special materials that, when mixed with water, forms a thin, concrete coating. This overlay is intended for use with Color Hardener and Antique Release.

- Creates a new 1/4” to 1/2” surface
- Can be textured & colored
- Durable
- Use with triple seven bond coat

OL-60 5 Gallon Bucket (Gray Mix)

For use with Color Hardener and Antique Release only

BRICKFORM **Micro-Topping** is used on interior or exterior cured concrete to create a durable surface that can be colored or stained. It is available as a white or gray dry powder in Smooth grade, and mixed with Brickform Liquid Polymer. The Smooth Grade is applied over SM Professional Grade for a smooth finish when desired. The mixed materials form a thin concrete coating that can be used to restore or repair any concrete surface.

- Interior/exterior
- Creates a new surface
- Can be colored & stained

MT-1500 SG	Gray Smooth	40 Lb. Bag
MT-2500 SG	White Smooth	40 Lb. Bag
MT-3000	Liquid Polymer	5 Gallon Bucket
MT-KIT	Sample Kit NEW	

BRICKFORM **SM Professional Grade** is a sprayable cementitious overlay that is designed to be applied with a hopper gun. It can be integrally colored using BRICKFORM Overlay Liquid Colorant. BRICKFORM SM Professional Grade can be used to create the look of brick, stone, tile or other unique specialty finishes.

- Ease of use
- Can be integrally colored
- Can be stained
- Spray or trowel
- Water resistant

MT-4000	60 Lb. Bag
SM-KIT	Sample Kit NEW

BRICKFORM **Triple Seven Bond Coat™** is an entirely new concept in primers for cementitious materials. It prevents the concrete from absorbing water from the overlay material making it easier to spread and achieve a smooth surface. Also, Triple Seven Bond Coat is a reactive primer, remaining active for at least two hours after it is applied. It reacts and forms a chemical link between the overlay and the substrate. Triple Seven Bond Coat increases the bond strength by creating a more efficient chemical link between the concrete and the overlay.

- “Reactive primer”
- Easy application
- Greatly enhances bonding to concrete
- Prevents the sub-floor from absorbing moisture from overlay
- Interior or exterior use

BC-007	5 Gallon
BC-0071	1 Gallon

Overlay Liquid Colorant is specifically designed for Brickform Micro-Topping, SM Professional Grade and Stampable Overlay (SC-60, White Mix). Available in 39 standard colors.

(See standard color selection guide for colors.)
Six per case, cannot break cases.
*Overlay Liquid Colorant not available in Smokey Blue.
