Technical Information

Cem-Coat Plus is an opaque, high-strength, cement-based concrete coating for unsealed concrete surfaces. It is a one-component system that mixes with water and must be sealed to provide lasting durability.

Coverage & Packaging

- 8 lb. pail
- Approx. 300–400 sq. ft. per pail

Important Notes

- Apply when air temperature is between 50°F and 85°F
- Use mixed material within 1–2 hours, depending on temperature
- Protect from rain, moisture, and staining until sealed
- Surface preparation is critical to product performance

Application Snapshot

- Prepare, profile, and clean the concrete surface
- Mix with water and Brickform pre-packaged colorant
- Apply thin coats by roller or airless sprayer
- Minimum two coats required
- Allow to dry and set before sealing

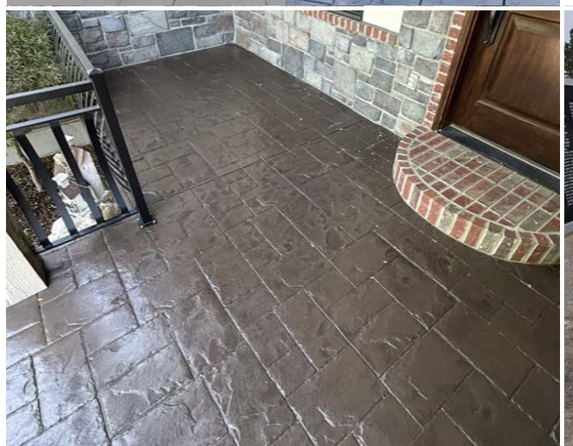
More Color. More Possibilities.

Cem-Coat Plus gives contractors and designers a flexible way to refresh existing unsealed concrete with rich, architectural color. Use it for patios, porches, walkways, interior concrete floors, decorative concrete surfaces, and custom project applications.

Why Cem-Coat Plus


- ✓ Durable cement-based coating
- ✓ Roller or airless sprayer application
- ✓ Can be antiqued or stained after curing
- ✓ Ideal for recoloring existing unsealed concrete
- ✓ Customizable color options
